

IDIA students crack CLAT to get admission to top law colleges through CLAT 2021

Press Release

India (29 July 2021)

CLAT results are out and IDIA students from diverse backgrounds have shown outstanding success despite many challenges posed by their circumstances. IDIA Charitable Trust (IDIA) is ready to welcome its new batch of Scholars in 2021 with at least 10 of its Trainees being eligible for admission to top law colleges in the first list. Around 10 more Trainees are expected to gain admission in the subsequent lists.

These students come from underprivileged backgrounds and have overcome many odds to crack one of the most competitive entrance examinations in the country. The pandemic posed new challenges with an ensuing digital divide that made online preparation and training a tough barrier for many of them to overcome. They have come from different parts across India, but are united in their goal to make a difference by contributing towards their communities and society through law.

Swabhiman Jayant Patil who was rigorously trained by IDIA has secured an AIR 42 in CLAT 2021 by scoring 106.75 marks out of 150. His father is a hard-working farmer and he hails from Kurdu, a small village in the Solapur district of Maharashtra. Understanding the importance of education, his family moved to Pune. Swabhiman came across IDIA through an awareness session conducted by IDIA volunteers in his college. He trained hard with IDIA by attempting mocks, attending lectures and revising continuously. His well-deserved success is an inspiration.

Another IDIA Trainee, Mayank Kumar who got AIR 97, hails from Khagaria district of Bihar. He is hardworking, goal oriented and a focused individual. His father is the sole bread earner and earns just around Rs. 15-20,000 through a small dairy business and farming. Mayank says that law is a tool which helps the society to prosper, and he would like to help his community through his legal training. The pandemic had forced his family to move to his village whereby it was very difficult for him to study due to lack of space and laptop, but his neighbours stepped in to support him. Now, he wants to give back to his community!

IDIA is a nationwide movement that selects and trains students from marginalized and underprivileged backgrounds to crack CLAT and other law entrance examinations. Once selected to top law colleges, IDIA gives them a holistic scholarship that includes financial assistance, trainings, mentorship etc. The aim is to create community leaders and change-makers who are CHAMPS (Creative, Holistic, Altruistic, Maverick/Moral, Problem Solvers). It is

hoped that this will help empower communities by creating capacity from within. In the last ten years, 129 students from underprivileged backgrounds have been inducted as IDIA Scholars while more than 550 students have been trained by the organisation.

The success of these students is a result of the hard work of the student team members across law colleges in India who worked tirelessly to train them for the law entrance examinations. We are also thankful to our training partners that include some of the coaching institutes, trainers, and centers across India who helped us in training some of these students.

We now need your help to sponsor the education of these students. They have shown their mettle and money should not stand in their way of pursuing their education! If you want to contribute towards their education, please write to info@idialaw.org.
