## STATEMENT OF OBJECTS AND REASONS

The Mines and Minerals (Development and Regulation) Act, 1957 (the Act) was enacted with a view to provide for the development and regulation of mines and minerals under the control of Union.

2. The Act was comprehensively amended in 2015 to bring several reforms in the mineral sector, notably, mandating auction of mineral concessions to improve transparency, establishing District Mineral Foundation and National Mineral Exploration Trust and stringent penalty for illegal mining. The Act was further amended in the years 2016 and 2020 to allow transfer of leases for non-auctioned captive mines and to deal with the emergent issue of expiry of leases on 31st March 2020.

3. In order to fully harness the potential of the mineral sector, increase employment and investment in the mining sector including coal, increase the revenue to the States, increase the production and time bound operationalisation of mines, maintain continuity in mining operations after change of lessee, increase the pace of exploration and auction of mineral resources and resolve long pending issues that have slowed the growth of the sector, it is felt necessary to further amend the said Act.

4. The Mines and Minerals (Development and Regulation) Amendment Bill, 2021, *inter alia*, provides for the following, namely:—

(i) to remove the distinction between captive and merchant mines by providing for auction of mines in future without restriction of captive use of minerals and allowing existing captive mines including captive coal mines to sell up to fifty per cent. of the minerals produced after meeting the requirement of linked end use plants to ensure optimal mining of mineral resources and specify the additional amount to be charged on such sale. The sale of minerals by captive plants would facilitate increase in production and supply of minerals, ensure economies of scale in mineral production, stabilize prices of ore in the market and bring additional revenue to the States;

(ii) to provide for payment of additional amount to the State Government on extension and grant of mining lease of Government companies to create level playing field between the auctioned mines and the mines of Government companies;

(iii) to provide that all the valid rights, approvals, clearances, licences and the like granted to a lessee in respect of a mine shall continue to be valid even after expiry or termination of lease and such clearances shall be transferred and vested to the successful bidder of the mining lease. This will ensure continuity in mining operations even with change of lessee, conservation of mineral and avoid repetitive and redundant process of obtaining clearances again for the same mine;

(iv) to grant short term mining lease to Government companies in situations where the auction of mines pursuant to sub-section (4) of section 8A has failed;

(v) to empower the Central Government to issue directions regarding composition and utilisation of Fund by the District Mineral Foundation;

(vi) to close the pending cases of non-auctioned concession holders which have not resulted in grant of mining leases despite passage of a considerable time of more than five years. The existence of these cases is anachronistic and antagonistic to the auction regime. The closure of the pending cases would facilitate the Government to put to auction a large number of mineral blocks in the interest of nation resulting in early operationalisation of such blocks and additional revenue to the State Governments;

(vii) to remove the restrictions on transfer of mineral concessions for non-auctioned mines to attract fresh investment and new technology in the sector;

(viii) to empower the Central Government to notify the area and conduct auction in cases where the State Governments face difficulty in notifying the areas and conducting auction or fails to notify the area or conduct auction in order to ensure auction of more number of mineral blocks on regular basis for continuous supply of minerals in the country;

(ix) to fix a time-frame for grant of leases for the areas reserved for Government companies for expediting grant of leases and production by the Government companies; and

(x) to amend section 21 of the Act so as to clarify the expression "without any lawful authority" in order to limit its scope to the violations of the said Act and the rules made thereunder. The said amendment will bring clarity and certainty to the mining sector.

5. The Bill seeks to achieve the above objectives.

NEW DELHI;  
*The 10th March, 2021.*

PRALHAD JOSHI.

#### FINANCIAL MEMORANDUM

The Bill seeks to amend the Mines and Minerals (Development and Regulation) Act, 1957 (the Act) to develop the mining sector to its full potential for faster economic growth.

2. Clause 12 of the Bill proposes to insert two provisos in clause (b) of sub-section (2) of section 10A of the said Act. The first proviso provides that upon commencement of the Mines and Minerals (Development and Regulation) Amendment Act, 2021, the rights of concession holders under clause (b) of sub-section (2) of section 10A to obtain a prospecting licence followed by a mining lease or a mining lease, as the case may be, shall lapse. The second proviso provides that the holder of a reconnaissance permit or prospecting licence whose right has lapsed under the proposed first proviso shall be reimbursed for expenditure incurred towards reconnaissance permit or prospecting operations in such manner as may be prescribed by the Central Government.

3. The financial implication of this amendment will be to the extent of payment of reimbursement by the Central Government to the holders of a reconnaissance permit or prospecting licence whose rights have lapsed. This expenditure on account of reimbursement may increase in case any foreign investor invokes Bilateral Investment Promotion and Protection Agreements executed between India and other countries. The value of awards, if any, of arbitration bodies under the said Agreement cannot be estimated at this stage.

4. The expenditure is to be incurred from the funds of the National Mineral Exploration Trust established under section 9C of the Act. The said Trust is established for the purpose of funding regional and detailed exploration of minerals. The holder of a mining lease or composite licence is mandated to pay to the Trust, a sum equivalent to two per cent. of royalty paid in terms of the Second Schedule of the Act. At present around six hundred crore rupees accrues annually to the Trust and the Trust has around one thousand seven hundred crore rupees after taking into account the projects sanctioned by the Trust. The accrual to and expenditure from the Trust are done through Consolidated Fund of India.

5. In case the funds accrued to the Trust are not sufficient for reimbursement, the expenditure will be made from the Consolidated Fund of India through budgetary allocation. All the expenditure from the Trust and Consolidated Fund of India would be of non-recurring nature.

6. The amount of reimbursement will be recouped from successful bidders of the mineral concession in that area and will be deposited in the Trust. However, recouping of amount would depend on successful auction of these blocks.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 13 of the Mines and Minerals (Development and Regulation) Amendment Bill, 2021 seeks to amend sub-section (2) of section 13 of the Mines and Minerals (Development and Regulation) Act, 1957 to make rules for carrying out the provisions of the proposed legislation which are as under:—

- (i) the period of mining lease under sub-section (4) of section 8;
- (ii) the manner of sale of mineral by the holder of a mining lease under sub-section (5) of section 8;
- (iii) the manner of sale of mineral under sub-section (7A) of section 8A;
- (iv) the manner for reimbursement of expenditure towards reconnaissance permits or prospecting operations under second proviso to clause (b) of sub-section (2) of section 10A;
- (v) the manner of granting mining lease to the preferred bidder under the second proviso to sub-section (4) of section 10B;
- (vi) the manner of granting composite licence to the preferred bidder under the second proviso to sub-section (5) of section 11; and
- (vii) the manner of granting mining lease by the State Government to the holder of the composite licence under sub-section (10) of section 11.

2. The matters in respect of which rules may be made and notifications issued are matters of procedure and administrative detail and it is not practicable to provide for them in the proposed legislation itself. The delegation of legislative power is, therefore, of a normal character.
